EXPERIENCE

Mob Entertainment — *Gameplay Programmer*

FEBRUARY 2023 - Present

Expanding on the existing Grabpack system, that lets players interact with the environment with new launchable Hands.

Authoring and maintaining new gameplay assets that integrate with the broader game systems and expand the puzzle-game experience.

Coordinating with relevant Departments to debug and resolve any issues.

Treyarch — *Game Design Intern*

MAY - AUGUST 2022

Collaborated with a multifunctional team to design and develop a game level by determining a feature list and identifying gameplay goals.

Attended weekly team meetings and reviewed my work with different departments.

Notey Inc. — *Game Developer*

SEPTEMBER 2021 - MAY 2022

Programmed mini-games in Unity for [Notey's World](#), an educational music game for mobile.

Reviewed other engineer's code and actively communicated revisions and changes.

Articulated best practices to the team and how to best apply them to our project.

PROJECTS

Wheelin' and Mealin' — *Co-op Cooking and Driving Game*

MAY 2020 - MAY 2022

Prototyped vehicle power-ups that encourage teamwork and affect aspects of driving.

Serpent Showdown — *3D Arena Fighter*

JUNE 2019 - MAY 2020

Published to [Steam](#)

Led 2 designers to establish intense yet accessible combat mechanics.
